Raw paired measurements · 4,719 formulas

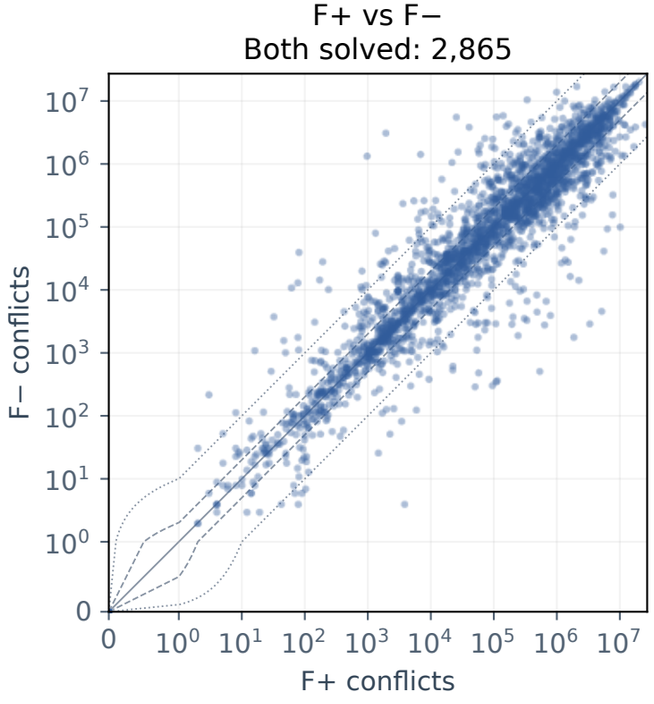

One dot = one formula. Ratio lines are 1× / 2× / 10× in both directions. 600 CPU-second limit.

Only D: 401 · only F+: 92 · neither: 1,242

Only D: 442 · only F−: 112 · neither: 1,222

Only F+: 211 · only F−: 190 · neither: 1,453

Conflicts panels show both-solved pairs only. One-sided and neither-solved counts are explicit; timeout conflicts are not solution costs.
